

ATEX

Fans zone 1 and 2

SPECIALS

- gas zone 1 and 2
- explosion group IIB or IIC in accordance with EN 14986
- temperature class T3, T4 - T6 on request
- frequency converter operation
- non-electrical equipment as per EN 80079
- documentation for drive (electrical part) and fan (non-electrical part)

APPLICATIONS

- . biogas plants
- . environment systems
- . stocking systems
- . vessels
- . electrical heating systems
- . exhaust systems
- . clean room technology
- . filling stations
- . mill technology

ATEX

Fans zone 21 and 22

SPECIFICATION

- gas zone 21 and 22
- explosion group IIIB or IIIC in accordance with EN 14986
- temperature class up to T 125°C
- frequency converter operation
- protection mode IP 65, non-electrical equipment as per EN 80079
- documentation for drive (electrical part) and fan (non-electrical part)

APPLICATIONS

- . filter plants
- . filling systems
- . milling systems
